**AEROFLEX ANNOUNCES
RADIATION HARDNESS ASSURANCE PLAN
CERTIFICATION**

PLAINVIEW, NY – Aeroflex Incorporated (“Aeroflex”), a wholly owned subsidiary of Aeroflex Holding Corp. (NYSE:ARX) announced today that its Aeroflex Plainview facility has received approval of its Radiation Hardness Assurance (RHA) Plan from the Defense Logistics Agency (DLA), Land and Maritime (formerly known as DSCC).

Aeroflex Plainview’s HiRel products of space-qualified MUXs, voltage regulators, transceivers, PWMs, RDCs, and their RHD Analog Function Series will appear on Standard Military Drawings (SMDs) with RHA designators of R, F, and H depending on the product family.

Specifically, the DLA certified Aeroflex Plainview’s facility to MIL-PRF-38534 Appendix G, Radiation Hardness Assurance Requirements (RHA) for hybrid microcircuits and multi-chip modules.

“Aeroflex Plainview has provided over 100,000 HiRel components for harsh environments for over 20 years,” said Tom Roslak, Vice-President and General Manager. “Our flight-proven standard products and multi-chip modules have aided customers in their successful missions. Our customers’ confidence in Aeroflex products to perform is further affirmed by certification from the DLA, a globally recognized authority in radiation assurance capabilities.”

[The official certification is available per request.](#)

###

Aeroflex Plainview is a leading supplier of HiRel off-the-shelf voltage regulators, MUX, RDCs, transceivers, PWMs, memory and MIPs microprocessor-based products for satellite, military and avionic applications. Other products offered are RF/Microwave, Battery Electronic Units (BEUs), SMT and Chip on Board modules. Further information on the company and their products can be found at www.aeroflex.com/HiRel.

About Aeroflex

Aeroflex Incorporated is a leading global provider of microelectronic components and test and measurement equipment used by companies in the space, avionics, defense, commercial wireless communications, medical and other markets.

All statements other than statements of historical fact included in this press release regarding Aeroflex's plans and objectives of its management for future operations are forward-looking statements, including, among other things, statements concerning the timing and completion of the Offers and Aeroflex's financial position and liquidity giving effect to the transactions contemplated by the Offers. When used in this press release, words such as "anticipate," "believe," "estimate," "expect," "intend" and similar expressions, as they relate to Aeroflex or its management, identify forward-looking statements. Such forward-looking statements are based on the current beliefs of Aeroflex's management, as well as assumptions made by and information currently available to its management. Actual results, risks and assumptions relating to the Offers could differ materially from those contemplated by the forward-looking statements as a result of certain factors, including but not limited to, adverse developments in the global economy; adverse developments relating to the Offers; the inability to continue to develop, manufacture and market innovative, customized products and services that meet customer requirements for performance and reliability; the termination of key contracts; and the failure to comply with regulations such as International Traffic in Arms Regulations and any changes in regulations. Such statements reflect the current views of management with respect to the future and are subject to certain risks, uncertainties and assumptions. Aeroflex does not undertake any obligation to update such forward-looking statements.
