

# Cobham's New Products for Your New Designs

**COBHAM**

The most important thing we build is trust

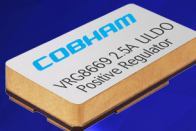

CAN FD Transceiver -  
Sensor Monitoring,  
System Telemetry,  
Command & Control

Bus Switch Family - Interface  
Solutions to Address Bus Loading  
and Isolation/Redundancy  
(smaller packages are available)

ManyGate Logic - Dual  
and Triple Multifunctional  
Configurable Logic Gates  
(packaged or die level)

Linear Regulators -  
Quiet Signal Chain Power

Voltage Reference - Optimal for Data  
Converters and Power Regulation

Temperature Monitor - Ideal for  
Spacecraft Health Monitoring

## Cobham Semiconductor Solutions

has been providing products for your HiRel applications for over 35 years.

Our latest products, all designed with your input, help solve your problems throughout your design cycle.

All 15 new products are available with the best radiation levels on the market, and are QML qualified with SMD numbers.

Call today for your production needs and join Cobham in flight this new year!
