AEROFLEX AIRFLYTE'S SLIP RINGS AVAILABLE ON-LINE FOR PURCHASE

Naples, Florida, December 17, 2012 — Aeroflex Incorporated (“Aeroflex”), a wholly owned subsidiary of Aeroflex Holding Corp. (NYSE:ARX) announced today Miniature and High Definition commercial slip rings are now available for purchase on-line from their Aeroflex Airflyte division.

A leading manufacturer of precision slip ring assemblies for 60 years, Aeroflex slip rings are available on-line for applications such as CCTV pan / tilt camera mounts, security cameras, robotic systems, medical equipment, electrical test and manufacturing equipment. Seven different products are available with more planned for 2013.

“We are pleased to bring the ease of purchase to our customers,” said Karl Anderson, Director of Sales and Marketing, Aeroflex Motion Control Products. “Our compact assembly Slip Rings are stocked and ready to ship within 3 business days. Order on-line at www.aeroflex.com/sliprings.”

Aeroflex Motion Control provides complete and integrated motion solutions for space, military, avionics, and strategic industrial customers.

About Aeroflex

Aeroflex Holding Corp. is a leading global provider of high performance microelectronic components, and test and measurement equipment used by companies in the space, avionics, defense, commercial wireless communications, medical and other markets.

Forward-looking Statements

All statements other than statements of historical fact included in this press release regarding Aeroflex's business strategy and plans and objectives of its management for future operations are forward-looking statements. When used in this press release, words such as "anticipate," "believe," "estimate," "expect," "intend" and similar expressions, as they relate to Aeroflex or its management, identify forward-looking statements. Such forward-looking statements are based on the current beliefs of Aeroflex's management, as well as assumptions made by and information currently available to its management. Actual results could differ materially from those contemplated by the forward-looking statements as a result of certain factors, including but not limited to, adverse developments in the global economy; changes in government spending; dependence on growth in customers' businesses; the ability to remain competitive in the markets Aeroflex serves; the inability to continue to develop, manufacture and market innovative, customized products and services that meet customer requirements for performance and reliability; any failure of suppliers to provide raw materials and/or properly functioning component parts; the inability to meet covenants contained in debt agreements; the termination of key contracts, including technology license agreements, or loss of key customers; the inability to protect intellectual property; the failure to comply with regulations such as International Traffic in Arms Regulations and any changes in regulations; the failure to realize anticipated benefits from completed acquisitions, divestitures or restructurings, or the possibility that such acquisitions, divestitures or restructurings could adversely affect Aeroflex; the loss of key employees; exposure to foreign currency exchange rate risks; and terrorist acts or acts of war. Such statements reflect the current views of management with respect to the future and are subject to these and other risks, uncertainties and assumptions. Aeroflex does not undertake any obligation to update such forward-looking statements. Any projections in this release are based on limited information currently available to Aeroflex, which is subject to change. Although any such projections and the factors influencing them will likely change, Aeroflex will not necessarily update the information, since Aeroflex will only provide guidance at certain points during the year.
